The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board WILLIAM E. ADAMS, *Chicago*
EDWARD J. BEATTIE, JR., *New York*
WILFRED G. BIGELOW, *Toronto*
EDWARD D. CHURCHILL, *Boston*
O. THERON CLAGETT, *Rochester, Minn.*
ANTHONY R. CURRERI, *Madison*
DONALD B. EFFLER, *Cleveland*
LEO ELOESSER, *San Francisco*
ROBERT E. GROSS, *Boston*
CAMERON HAIGHT, *Ann Arbor*
STUART W. HARRINGTON, *Rochester, Minn.*
JOHN C. JONES, *Los Angeles*
HIRAM T. LANGSTON, *Chicago*
HERBERT C. MAIER, *New York*
DONALD L. PAULSON, *Dallas*
DAVID C. SABISTON, JR., *Durham, N. C.*
PAUL C. SAMSON, *Oakland*

Advisory editorial board representing the Society of Thoracic Surgeons of Great Britain and Ireland
LORD RUSSELL C. BROCK, *London, England*
SIR CLEMENT PRICE THOMAS, *Sussex, England*

EVARTS A. GRAHAM, *Editor, 1931-1957*
EMILE HOLMAN, *Editor, 1957-1962*

Subject index*

A

Aberrant right subclavian artery, symptomatic, in adult (dysphagia lusoria), new operation for (Siderys), 269

Absence of pulmonary valve in patients with tetralogy of Fallot (Waldhausen et al.), 669

Acid-base balance on pulmonary mechanics, effect of alterations in (Peters et al.), 303

Air leaks, pulmonary, simple method of quantitating (Bonchek), 545

Allogeneic canine lung transplants from living donors, physiologic evaluation of (Fonkalsrud et al.), 607

Alterations in acid-base balance on pulmonary mechanics, effect of (Peters et al.), 303

Alveolar cell (bronchiolar) carcinoma of lung (McNamara et al.), 648
proteinosis, pulmonary (Gerard et al.), 273

American Association of Thoracic Surgery: Program of 1969 Meeting, 298

Analysis of operated and nonoperated patients with documented coronary arterial disease (Diethrich et al.), 115

Anastomosis (es), end-to-end, primary, following circumferential resection of trachea: leiomyoma of intrathoracic trachea (Kitamura et al.), 126
Potts, in total repair of tetralogy of Fallot, closure of (Gross et al.), 72
Vineberg, early, detailed anatomy of (Trapp et al.), 450

Anatomy, detailed, of early Vineberg anastomosis (Trapp et al.), 450

Anesthesia, general, for bronchoscopy, ventilation during (Morales et al.), 873

Aneurysm(s), annular, subaortic, surgical repair of (Collins et al.), 764
aortic, thoracic, dissecting, complication of antihypertensive therapy for (Kahn et al.), 721

Aneurysm(s)—Cont'd
spontaneous, of ductus arteriosus in childhood (Tutassaura et al.), 180

Aneurysmectomy, thoracic, with particular attention to prevention of left heart failure, bypass flow requirements during (Hug and Taber), 203

Angiography, pulmonary, in lung cancer suspects (Engelman et al.), 356

Angiospasm, pulmonary, particular reference to: hemodynamic changes following experimental pulmonary embolism (Eichelter and Schenk), 866

Annular aneurysm, subaortic, surgical repair of (Collins et al.), 764

Anomalous origin of left pulmonary artery from ascending aorta (Caudill et al.), 493
right pulmonary venous drainage into inferior vena cava and left atrium (Gazzaniga et al.), 251

Antibiotic prophylaxis in cardiac surgery, study of (Fekety et al.), 757

Antihypertensive therapy for dissecting thoracic aortic aneurysms, complications of (Kahn et al.), 721

Aorta, ascending, anomalous origin of left pulmonary artery from (Caudill et al.), 493
in infancy, coarctation of (Pelletier et al.), 171
with patent ductus arteriosus, origin of right pulmonary artery from (Kuypers et al.), 185
thoracic, dysphagia caused by tortuosity of (Hanna and Derrick), 134

Aortic cannulation: simple technical aid (Pragnell et al.), 606
cusps causing aortic regurgitation, fenestration of (Symbas et al.), 464
homografts and heterografts, comparative study of selected physical properties of (Harris et al.), 830
insufficiency, rheumatoid spondylitis and: operable combination (Malette et al.), 471
and mitral valve replacement, clinical experience with supported homograft heart valve for (Sugie et al.), 455

*January, pp. 1-152; February, pp. 153-302; March, pp. 303-454; April, pp. 455-606; May, pp. 607-756; June, pp. 757-912.

Aortic—Cont'd
regurgitation, fenestration of aortic cusps causing (Symbas et al.), 464
valve(s), fascial, autogenous, in dogs (Myers and Miller), 805
pig, as replacement for mitral valve in dog (Reed et al.), 663
surgery, coronary arterial perfusion during (Hirose and Bailey), 164
valvular incompetence, surgical considerations in treatment of ventricular septal defect associated with (Gonzalez-Lavin and Barratt-Boyes), 422
Aorticopulmonary window in congenital heart disease with ischemic lungs, surgical production of (Argüero et al.), 786
Aortocoronary bypass grafts (Kerth), 487
Aortopulmonary window (Deverall et al.), 479
Army artificial heart pump, post-sytolic myocardial augmentation with (Hewitt and Matsumoto), 527
Arrhythmias, ventricular, postoperative, effect of modified preoperative, intraoperative, and postoperative potassium supplementation on incidence of (Shanahan et al.), 413
Arterial cannula for extended circulatory support (Hewitt and Matsumoto), 778
disease, coronary, documented, analysis of operated and nonoperated patients with (Diethrich et al.), 115
Arteriography, cine coronary, selective, in patients with complete heart block (Begg et al.), 9
Artificial heart pump, Army, post-systolic myocardial augmentation with (Hewitt and Matsumoto), 527
hearts and their experimental study, problems of (Petrovsky and Shumakov), 431
Aspergillosis, pulmonary, surgery for (Kilman et al.), 642
Assisted circulation: an extended concept of cardiopulmonary resuscitation (Kennedy), 688
respiration, management of tracheal stenosis following (Grillo), 52
Atresia, tricuspid, palliative treatment of: combined balloon atrioseptostomy and surgical alteration of pulmonary blood flow (Rashkind et al.), 812
Atrial secundum defects, atrial dysrhythmia and (Sealy et al.), 245
Atrioseptostomy, balloon, combined, and surgical alteration of pulmonary blood flow: palliative treatment in tricuspid atresia (Rashkind et al.), 812
Atrioventricular canal, common, persistent: recatheterization results after intracardiac repair (Lillehei et al.), 83
Atrium, left, and inferior vena cava, anomalous right pulmonary venous drainage into (Gazzaniga et al.), 251
right, and pericardium, mediastinal granuloma involving (Cohn et al.), 597
Autogenous fascial aortic valves in dogs (Myers and Miller), 805
Azygos lobe, carcinoma of (Mullin et al.), 839

B

Balloon atrioseptostomy, combined, and surgical alteration of pulmonary blood flow: palliative treatment in tricuspid atresia (Rashkind et al.), 812
Band, artery, pulmonary, radiopaque (Stinson et al.), 781
Bentley (Temptrol) disposable blood oxygenator, new, clinical evaluation of (Kalke et al.), 679
Benzalkonium and heparin concentrations on GBH surfaces after prolonged exposure to bloodstream (Whiffen and Beeckler), 601
Bilateral apical carcinomas of the lung (Holleran and Okinaka), 853
Blastoma and carcinosarcoma: primary mixed malignancies of lung (Stackhouse et al.), 385
Blood flow, coronary, in homografted canine heart, changes in (Folts and Boake), 230
pulmonary, combined balloon atrioseptostomy and surgical alteration of: palliative treatment in tricuspid atresia (Rashkind et al.), 812
pump, flow, pulsatile, based on principle of Wankel engine (Verbiski et al.), 753
stream, benzalkonium and heparin concentrations on GBH surfaces after prolonged exposure to (Whiffen and Beeckler), 601
trauma produced by pump oxygenators: comparative study of 5 units (Andersen and Kuchiba), 238
Board of Thoracic Surgery: Examination announcement, 150, 297, 449, 605, 756
Breathing, work of, and total compliance after thoracotomy (Peters et al.), 348
Bronchial carcinoma, positive sputum cytologic tests for 5 years before specific detection of (Meyer et al.), 318
dynamics following radical hilar stripping (Wolfensperger et al.), 558
polyps of inflammatory origin (Rosenberg), 848

Bronchial—Cont'd
stump, pericardium to cover: modification of technique of left pneumonectomy (Robicsek et al.), 543
Bronchiolar carcinoma (alveolar cell), of lung (McNamara et al.), 648
Bronchogenic carcinoma in situ in asymptomatic high-risk population of smokers (Valaitis et al.), 325
localized interlobular septal lines in (Altemus), 380
Bronchoscopy, ventilation during general anesthesia for (Morales et al.), 873
Bronchus with chondroid metaplasia and elevated 5-hydroxyindoleacetic acid excretion, mucoepidermoid carcinoma of (Welborn et al.), 618
leiomyoma of (Taylor and Miller), 284
Burns, caustic, in children, management and problems of (Middlekamp et al.), 341
Bypass, cardiac, on pulmonary diffusing capacity, effect of (Kaplan et al.), 738
cardiopulmonary: hemolysis in vitro by dextrose-saline solutions (Fisk et al.), 857
flow requirements during thoracic aneurysmectomy with particular attention to prevention of left heart failure (Hug and Taber), 203
grafts, aortocoronary (Kerth), 487
heart, left, in experimental cardiogenic shock, effects of (MacFarlane et al.), 214
right, pulsatile and nonpulsatile, pulmonary function during (Wemple et al.), 190

C

Cancer of lung, carcinomatous neuroendocrinopathy associated with: abnormal electromyography in patients with pulmonary carcinoma (Kennedy et al.), 276
(lung), suspects, pulmonary angiography in (Engelman et al.), 356
Cannula, arterial, for extended circulatory support (Hewitt and Matsumoto), 778
Cannulation, aortic: simple technical aid (Pragnell et al.), 606
peripheral, and pump oxygenation during 8 hours of ventricular fibrillation in dog, total circulatory support by (Proctor and Parker), 702
Carcinoma(s), apical, bilateral, of lung (Holleran and Okinaka), 853
of azygos lobe (Mullin et al.), 839
and blastoma: primary mixed malignancies of lung (Stackhouse et al.), 385
Carcinoma(s)—Cont'd
bronchial, positive sputum cytologic tests for 5 years before specific dectection of (Meyer et al.), 318
(bronchiolar), alveolar cell, of lung (McNamara et al.), 648
bronchogenic, localized interlobular septal lines in (Altemus), 380
peripheral, up to 4 cm. in diameter presenting as solitary pulmonary nodules, survival rates in (Jackman et al.), 1
in situ, bronchogenic, in asymptomatic high-risk population of smokers (Valaitis et al.), 325
mucoepidermoid, of bronchus with chondroid metaplasia and elevated 5-hydroxyindoleacetic acid excretion (Welborn et al.), 618
Carcinomatous neuroendocrinopathy associated with cancer of lung: abnormal electromyography in patients with pulmonary carcinoma (Kennedy et al.), 276
Cardiac assistance, long-term, use of computer to monitor (Stanley and Boam), 519
bypass on pulmonary diffusing capacity, effect of (Kaplan et al.), 738
lymph drainage, pathologic and functional effects on heart following interruption of (Symbas et al.), 577
pacing, synchronous, P-wave, selected electrocardiographic patterns associated with (Samet et al.), 796
surgery, study of antibiotic prophylaxis in (Fekety et al.), 757
Cardiogenic shock, experimental, effects of left heart bypass in (MacFarlane et al.), 214
Cardiopulmonary bypass: hemolysis in vitro by dextrose-saline solution (Fisk et al.), 857
water and cation content of red blood cells and muscle tissue before and after (Das et al.), 824
resuscitation, extended concept of: assisted circulation (Kennedy), 688
Catheters, pacemaker, in coronary sinus, malplacement of (Meyer and Millar), 511
pressure-recording, arterial, continuous flush of (Johnson and Ito), 675
Cation and water content of red blood cells and muscle tissue before and after cardiopulmonary bypass (Das et al.), 824
Caustic burns in children, management and problems of (Middlekamp et al.), 341
Cavitary left atrial electrograms after open-heart surgery (Schienman and Hutchinson), 400
pulmonary histoplasmosis, therapy of (Ahn et al.), 42

Changes in coronary blood flow in homografted canine heart (Folts and Boake), 230
Changing of cardiac pacemakers, protective clip lead for (Alpert et al.), 151
Chest trauma, blunt, esophageal stenosis secondary to (Tsuji et al.), 289
Childhood, spontaneous aneurysm of ductus arteriosus in (Tutassaura et al.), 180
Children under 4 years of age, results of correction of tetralogy of Fallot in (Burnell et al.), 153
management and problems of caustic burns in (Middlekamp et al.), 341
Chondromyxoid fibroma, large, of sternum, resection of (Teitelbaum and Bessone), 333
Chylopericardium, primary (Daniel and Bressie), 408
Cine coronary arteriography, selective, in patients with complete heart block (Begg et al.), 9
Circulation, assisted: an extended concept of cardiopulmonary resuscitation (Kennedy), 688
Circulatory support, extended, arterial cannula for (Hewitt and Matsumoto), 778
total, by peripheral cannulation and pump oxygenation during 8 hours of ventricular fibrillation in dog (Proctor and Parker), 702
Clip lead, protective, for changing of cardiac pacemakers (Alpert et al.), 151
Coarctation of aorta in infancy (Pelletier et al.), 171
Compliance, total, and work of breathing after thoracotomy (Peters et al.), 348
Compression of anomalous left circumflex coronary arteries by prosthetic valve fixation rings (Roberts and Morrow), 834
Computer to monitor long-term cardiac assistance, use of (Stanley and Boam), 519
Congenital anomaly, rare: aortopulmonary window (Deverall et al.), 479
heart disease with ischemic lungs, surgical production of aorticopulmonary window in (Argüero et al.), 786
water and electrolyte content of skeletal muscle in (Das and Eraklis), 819
Controllable coronary embolization, method for producing (Sekiguchi et al.), 585
Coronary arterial disease, documented, analysis of operated and nonoperated patients with (Diethrich et al.), 115
perfusion during aortic valve surgery (Hirose and Bailey), 164
arteries, circumflex, left, anomalous, by prosthetic valve fixation rings, compression of (Roberts and Morrow), 834
Coronary—Cont'd
blood flow in homografted canine heart, changes in (Folts and Boake), 230
embolization, controllable, method for producing (Sekiguchi et al.), 585
insufficiency, maximal treadmill stress test for evaluation of medical and surgical treatment of (Kemp et al.), 708
sinus, malplacement of pacemaker catheters in (Meyer and Millar), 511
Correction of tetralogy of Fallot in children under 4 years of age, results of (Burnell et al.), 153
following superior vena cava to pulmonary artery shunt (Claxton and Sabiston), 475
CPPB, continuous positive-pressure breathing, in adult respiratory distress syndrome (Ashbaugh et al.), 31
Cuffed tubes as cause of tracheal stenosis (Shelly et al.), 623
Cusps, aortic, causing aortic regurgitation, fenestration of (Symbas et al.), 464
Cytologic tests, sputum, positive, for 5 years before specific detection of bronchial carcinoma (Meyer et al.), 318

D

Detection, specific, of bronchial carcinoma, positive sputum cytologic tests for 5 years before (Meyer et al.), 318
Dextrose-saline solutions, hemolysis in vitro by (Fisk et al.), 857
Diffusing capacity, pulmonary, effect of cardiac bypass on (Kaplan et al.), 738
Disposable blood oxygenator, Temptrol, new, clinical evaluation of (Kalke et al.), 679
Dissecting thoracic aortic aneurysms, complications of antihypertensive therapy for (Kahn et al.), 721
Double valve replacement in Marfan's syndrome (Nelson and Vaughn), 732
Drainage, venous, pulmonary, right, anomalous, into inferior vena cava and left atrium (Gazzaniga et al.), 251
Ductus arteriosus in childhood, spontaneous aneurysm of (Tutassaura et al.), 180
patent, origin of right pulmonary artery from aorta with (Kuypers et al.), 185
Dysphagia caused by tortuosity of thoracic aorta (Hanna and Derrick), 134
lusoria: new operation for symptomatic aberrant right subclavian artery in adult (Siderys), 269

Dysrhythmia, atrial, and atrial secundum defects (Sealy et al.), 245

E

Electrical stimulation, long-term, of heart, surgical aspects of (Frank et al.), 17
Electrocardiographic patterns, selected, associated with P-wave synchronous cardiac pacing (Samet et al.), 796
Electrograms, atrial, left, cavitary, after open-heart surgery (Schienman and Hutchinson), 400
Electrolyte and water content of skeletal muscle in congenital heart disease (Das and Eraklis), 819
Electromyograph, abnormal, in patients with pulmonary carcinoma (Kennedy et al.), 276
Embolism, pulmonary, experimental, hemodynamic changes following (Eichelter and Schenk), 866
Embolization, coronary, controllable, method for producing (Sekiguchi et al.), 585
Embryonal sarcoma of lung: case report with discussion regarding morphogenesis (Chitambar et al.), 657
Esophageal stenosis secondary to blunt chest trauma (Tsuji et al.), 289
Esophagus, lye injuries of (Borja et al.), 533
use of onlay gastric patch in instrumental rupture of (Mark and Knauer), 883
Examinations: Board of Thoracic Surgery, 150, 297, 449, 605, 756
Excretion, 5-hydroxyindoleacetic acid, elevated, mucoepidermoid carcinoma of bronchus with chondroid metaplasia and (Welborn et al.), 618

F

Fallot, tetralogy of, absence of pulmonary valve in patients with (Waldhausen et al.), 669
in children under 4 years of age, results of correction of (Burnell et al.), 153
closure of Potts anastomoses in total repair of (Gross et al.), 72
following superior vena cava to pulmonary artery shunt, correction of (Claxton and Sabiston), 475
Fenestration of aortic cusps causing aortic regurgitation (Symbas et al.), 464
Fibroma, chondromyxoid, large, of sternum, resection of (Teitelbaum and Bessone), 333
Fibrous and granulomatous mediastinitis (Schowengerdt et al.), 365
Flow requirements, bypass, during thoracic aneurysmectomy with particular attention to prevention of left heart failure (Hug and Taber), 203
Fluorospirograph, portable: method for estimation of individual lung ventilation (Aoki et al.), 879
Flush, continuous, of arterial pressure-recording catheters (Johnson and Ito), 675

G

GBH surfaces after prolonged exposure to bloodstream, benzalkonium and heparin concentrations on (Whiffen and Beeckler), 601
Graft(s), bypass, aortocoronary (Kerth), 487
vascular, Teflon, fate of (Honigman et al.), 255
vein, composite, autogenous, successful, report of: superior vena cava replacement (Rheinlander), 774
Granuloma, mediastinal, involving pericardium and right atrium (Cohn et al.), 597
Granulomatous and fibrous mediastinitis (Schowengerdt et al.), 365
Great vessels, transposition of: hemodynamic correction in infants (Dobell et al.), 108
long-term follow-up of corrected case (Shumacker and Girod), 747

H

Heart(s), artificial, and their experimental study, problems of (Petrovsky and Shumakov), 431
block, complete, selective cine coronary arteriography in patient with (Begg et al.), 9
bypass, left, in experimental cardiogenic shock, effects of (MacFarlane et al.), 214
right, pulsatile and nonpulsatile, pulmonary function during (Wemple et al.), 190
canine, homografted, changes in coronary blood flow in (Folts and Boake), 230
following interruption of the cardiac lymph drainage, pathologic and functional effects on (Symbas et al.), 577
failure, left, bypass flow requirements during thoracic aneurysmectomy with particular attention to prevention of (Hug and Taber), 203

Heart—Cont'd
pump, artificial, Army, post-systolic myocardial augmentation with (Hewitt and Matsumoto), 527
surgical aspects of long-term electrical stimulation of (Frank et al.), 17
transplantation in rats, improved technique of (Ono and Lindsey), 225
Heller operation plus longitudinal excision of portion of wall in surgical treatment of mega-esophagus (Malm and Schwindt), 312
Hemodynamic consequences, acute, of ligation of inferior vena cava (Harsanyi et al.), 442
changes following experimental pulmonary embolism (Eichelter and Schenk), 866
correction of transposition of great vessels in infants (Dobell et al.), 108
Hemolysis in vitro by dextrose-saline solutions (Fisk et al.), 857
Hemopericardium, traumatic, with tricuspid incompetence (Shabetai et al.), 294
Heparin and benzalkonium concentrations on GBH surfaces after prolonged exposure to bloodstream (Whiffen and Beeckler), 601
Heterografts, aortic, and homografts, comparative study of selected physical properties of (Harris et al.), 830
Hilar stripping, radical, bronchial dynamics following (Wolfensperger et al.), 558
Histoplasmosis, pulmonary, cavitary, therapy of (Ahn et al.), 42
Homograft(s), aortic, and heterografts, comparative study of selected physical properties of (Harris et al.), 830
heart valve, supported, for mitral and aortic valve replacement, clinical experience with (Sugie et al.), 455
Homografted canine heart, changes in coronary blood flow in (Folts and Boake), 230

I

Implant, vascular, myocardial, systolic pressure in tunnelled portion of (Baird and Manktelow), 714
Implantation, pacemaker, new technique for: extrapleural, intramyocardial (Reed et al.), 507
Incompetence, tricuspid, traumatic hemopericardium with (Shabetai et al.), 294
Infancy, coarctation of aorta in (Pelletier et al.), 171
Infants, hemodynamic correction of transposition of great vessels in (Dobell et al.), 108
Interruption of cardiac lymph drainage, pathologic and functional effects on heart following (Symbas et al.), 577
Intracardiac repair of persistent common atrioventricular canal, recatheterization results following (Lillehei et al.), 83
Ischemic lungs, surgical production of aorticopulmonary window in congenital heart disease with (Argüero et al.), 786

L

Lead, clip, protective, for changing of cardiac pacemakers (Alpert et al.), 151
Leaks, air, pulmonary, simple method of quantitating (Bonchek), 545
Leiomyoma of bronchus (Taylor and Miller), 284
of intrathoracic trachea (Kitamura et al.), 126
Leiomyosarcoma, primary, of lung (McNamara et al.), 635
Ligation of inferior vena cava, acute hemodynamic consequences of (Harsanyi et al.), 442
Localized interlobular septal lines in bronchogenic carcinoma (Artemus), 380
Longitudinal excision of portion of esophageal wall plus Heller operation for treatment of mega-esophagus (Malm and Schwindt), 312
Lung(s), alveolar cell (bronchiolar) carcinoma of (McNamara et al.), 648
bilateral apical carcinomas of (Holleran and Okinaka), 853
embryonal sarcoma of: case report with discussion regarding morphogenesis (Chitambar et al.), 657
ischemic, surgical production of aorticopulmonary window in congenital heart disease with (Argüero et al.), 786
primary leiomyosarcoma of (McNamara et al.), 635
mixed malignancies of: carcinosarcoma and blastoma (Stackhouse et al.), 385
residual, following pneumonectomy in young and adult rabbits, morphometric analysis of late adaptation of (Šerý et al.), 549
transplanted, functional studies of (Suzuki et al.), 562
transplants, canine, allogeneic, from living donors, physiologic evaluation of (Fonkalsrud et al.), 607
ventilation, individual, method for estimation of: portable fluorospirograph (Aoki et al.), 879

Lye injuries of esophagus (Borja et al.), 533
Lymph drainage, cardiac, pathologic and functional effects on heart following interruption of (Symbas et al.), 577

M

Malfunction of mitral ball-valve prostheses due to swollen poppet (Leatherman et al.), 160
Malignancies, mixed, primary, of lung: carcinosarcoma and blastoma (Stackhouse et al.), 385
Malplacement of pacemaker catheters in coronary sinus (Meyer and Millar), 511
Marfan's syndrome, double valve replacement in (Nelson and Vaughn), 732
Mediastinal granuloma involving pericardium and right atrium (Cohn et al.), 597
Mediastinitis, granulomatous and fibrous (Schowengerdt et al.), 365
Mediastinoscopy (Bilgutay et al.), 841
Mega-esophagus, new surgical approach to treatment of (Malm and Schwindt), 312
Metaplasia, chondroid, and elevated 5-hydroxyindoleacetic acid excretion, mucoepidermoid carcinoma of bronchus with (Welborn et al.), 618
Mitral ball-valve prostheses due to swollen poppet, malfunction of (Leatherman et al.), 160
and aortic valve replacement, clinical experience with supported homograft heart valve for (Sugie et al.), 455
valve in dog, pig aortic valve as replacement for (Reed et al.), 663
prosthesis, disc, reoperation for fibrinous stenosis of (Paton), 726
Morphogenesis: embryonal sarcoma of lung (Chitambar et al.), 657
Morphometric analysis of late adaptation of residual lung following pneumonectomy in young and adult rabbits (Šerý et al.), 549
Mucoepidermoid carcinoma of bronchus with chondroid metaplasia and elevated 5-hydroxyindoleacetic acid excretion (Welborn et al.), 618
Myocardial augmentation, post-systolic, with Army artificial heart pump (Hewitt and Matsumoto), 527
vascular implant, systolic pressure in tunnelled portion of (Baird and Manktelow), 714

N

Neuroendocrinopathy, carcinomatous, associated with cancer of lung: abnormal electromyograph in patients with pulmonary carcinoma (Kennedy et al.), 276
Nodules, pulmonary, solitary, survival rates in peripheral bronchogenic carcinomas up to 4 cm. diameter presenting as (Jackman et al.), 1
Nonpulsatile and pulsatile right heart bypass, pulmonary function during (Wemple et al.), 190

O

Obliteration of postpneumonectomy space, factors influencing (Suarez et al.), 539
Onlay gastric patch in instrumental rupture of esophagus, use of (Mark and Knauer), 883
Open-heart surgery, cavitary left atrial electrograms after (Schienman and Hutchinson), 400
Operation, new, for symptomatic aberrant right subclavian artery in adult (dysphagia lusoria), (Siderys), 269
Origin, anomalous, of left pulmonary artery from ascending aorta (Caudill et al.), 493
of right pulmonary artery from aorta with patent ductus arteriosus (Kuypers et al.), 185
Osmolarity of perfusion prime: water and cation content of red blood cells and muscle tissue before and after cardiopulmonary bypass (Das et al.), 824
Ostial stenosis, coronary: late complication of coronary perfusion in open-heart surgery (Trimble et al.), 792
Output syndrome, low: recognition and treatment (Dietzman et al.), 138
Oxygenation, pump, during 8 hours of ventricular fibrillation in dog, total circulatory support by peripheral cannulation and (Proctor and Parker), 702
Oxygenator(s), blood, disposable, Temptrol, new, clinical evaluation of (Kalke et al.), 679
pump, blood trauma produced by: comparative study of 5 units (Andersen and Kuchiba), 238

P

Pacemaker(s), cardiac, protective clip lead for changing of (Alpert et al.), 151
catheters in coronary sinus, malplacement of (Meyer and Millar), 511
implantation, new technique for: extrapleural, intramyocardial (Reed et al.), 507
Pacing, cardiac, synchronous, P-wave, selected electrocardiographic patterns associated with (Samet et al.), 796

Palliative treatment in tricuspid atresia: combined balloon atrioseptostomy and surgical alteration of pulmonary blood flow (Rashkind et al.), 812

Patch, gastric, onlay, in instrumental rupture of esophagus, use of (Mark and Knauer), 883

Perfusion, arterial, coronary, during aortic valve surgery (Hirose and Bailey), 164

coronary, in open-heart surgery, late complication of: coronary ostial stenosis (Trimble et al.), 792

prime, effects of osmolarity of: water and cation content of red blood cells and muscle tissue before and after cardiopulmonary bypass (Das et al.), 824

Pericardium and right atrium, mediastinal granuloma involving (Cohn et al.), 597

Persistent common atrioventricular canal: recatheterization results after intracardiac repair (Lillehei et al.), 83

Physiologic evaluation of allogeneic canine lung transplants from living donors (Fonkalsrud et al.), 607

Pig aortic valve as replacement for mitral valve in dog (Reed et al.), 663

Pneumonectomy, left, modification of technique of (Robicsek et al.), 543

in young and adult rabbits, morphometric analysis of late adaptation of residual lung following (Šerý et al.), 549

Polyps, bronchial, of inflammatory origin (Rosenberg), 848

Poppet, swollen, malfunction of mitral ball-valve prostheses due to (Leatherman et al.), 160

Population, high-risk, asymptomatic, of smokers, brochogenic carcinoma in situ in (Valaitis et al.), 325

Positive-pressure breathing, continuous, (CPPB), in adult respiratory distress syndrome (Ashbaugh et al.), 31

Postperfusion pulmonary damage, secondary nature of surfactant changes in (Panossian et al.), 628

Postpneumonectomy space: factors influencing its obliteration (Suarez et al.), 539

Potassium supplementation, preoperative, intraoperative, and postoperative, modified, on incidence of postoperative ventricular arrhythmias, effect of (Shanahan et al.), 413

Potts anastomoses in total repair of tetralogy of Fallot, closure of (Gross et al.), 72

Pressure, systolic, in tunnelled portion of myocardial vascular implant (Baird and Manktelow), 714

Primary chylopericardium (Daniel and Bressie), 408

leiomyosarcoma of lung (McNamara et al.), 635

Prophylaxis, antibiotic, in cardiac surgery, study of (Fekety et al.), 757

Prostheses, ball-valve, mitral, due to swollen poppet, malfunction of (Leatherman et al.), 160

Prosthesis, mitral valve, disc, reoperation for fibrinous stenosis of (Paton), 726

Prosthetic valve fixation rings, compression of anomalous left circumflex coronary arteries by (Roberts and Morrow), 834

Proteinosis, alveolar, pulmonary (Gerard et al.), 273

Pulmonary air leaks, simple method for quantitating (Bonchek), 545

alveolar proteinosis (Gerard et al.), 273

angiography in lung cancer suspects (Engelman et al.), 356

artery band, radiopaque (Stinson et al.), 781

left, from ascending aorta, anomalous origin of (Caudill et al.), 493

right, from aorta with patent ductus arteriosus, origin of (Kuypers et al.), 185

aspergillosis, surgery for (Kilman et al.), 642

damage, postperfusion, secondary nature of surfactant changes in (Panossian et al.), 628

diffusing capacity, effect of cardiac bypass on (Kaplan et al.), 738

embolism, experimental, hemodynamic changes following (Eichelter and Schenk), 866

function during pulsatile and nonpulsatile right heart bypass (Wemple et al.), 190

histoplasmosis, cavitary, therapy of (Ahn et al.), 42

mechanics, effect of alterations in acid-base balance on (Peters et al.), 303

nodules, solitary, survival rates in peripheral bronchogenic carcinomas up to 4 cm. in diameter presenting as (Jackman et al.), 1

valve in patients with tetralogy of Fallot, absence of (Waldhausen et al.), 669

Pulsatile flow blood pump based on principle of Wankel engine (Verbiski et al.), 753

and nonpulsatile right heart bypass, pulmonary function during (Wemple et al.), 190

Pump, blood, flow, pulsatile, based on principle of Wankel engine (Verbiski et al.), 753

heart, artificial, Army, post-systolic myocardial augmentation with (Hewitt and Matsumoto), 527

P-wave synchronous cardiac pacing, selected electrocardiographic patterns associated with (Samet et al.), 796

R

Radical hilar stripping, bronchial dynamics following (Wolfensperger et al.), 558

Radiopaque pulmonary artery band (Stinson et al.), 781

Regurgitation, aortic, fenestration of aortic cusps causing (Symbas et al.), 464

Reoperation for fibrinous stenosis of disc mitral valve prosthesis (Paton), 726

Repair, complete, of truncus arteriosus defects (Wallace et al.), 95

Replacement, aortic and mitral valve, clinical experience with supported homograft heart valve for (Sugie et al.), 455

for mitral valve in dog, pig aortic valve as (Reed et al.), 663

valve, double, in Marfan's syndrome (Nelson and Vaughn), 732

vena cava, superior (Rheinlander), 774

Resection of large chrondyomyxoid fibroma of sternum (Teitelbaum and Bessone), 333

circumferential, of trachea, primary end-to-end anastomosis following: leiomyoma of intrathoracic trachea (Kitamura et al.), 126

Respiration, assisted, management of tracheal stenosis following (Grillo), 52

Respiratory distress syndrome, adult, continuous positive-pressure breathing (CPPB) in (Ashbaugh et al.), 31

Resuscitation, cardiopulmonary, extended concept of: assisted circulation (Kennedy), 688

Revascularization, transventricular, direct, experimental evaluation of (Kuzela and Miller), 770

Rheumatoid spondylitis and aortic insufficiency: operable combination (Malette et al.), 471

Rings, fixation, valve, prosthetic, compression of anomalous left circumflex coronary arteries by (Roberts and Morrow), 834

Rupture, instrumental, of esophagus, use of onlay gastric patch in (Mark and Knauer), 883

S

Sarcoma, embryonal, of lung: case report with discussion regarding morphogenesis (Chitambar et al.), 657

Secundum defects, atrial, atrial dysrhythmia and (Sealy et al.), 245

Selective cine coronary arteriography in patients with complete heart block (Begg et al.), 9

Septal defect, ventricular, associated with aortic valvular incompetence, surgical considerations in treatment of (Gonzalez-Lavin and Barratt-Boyes), 422

lines, interlobular, localized, in bronchogenic carcinoma (Altemus), 380

Shock, cardiogenic, experimental, effects of left heart bypass in (MacFarlane et al.), 214

Shunt, superior vena cava to pulmonary artery, correction of tetralogy of Fallot following (Claxton and Sabiston), 475

Skeletal muscle in congenital heart disease, water and electrolyte content of (Das and Eraklis), 819

Smokers, bronchogenic carcinoma in situ in asymptomatic high-risk population of (Valaitis et al.), 325

Space, postpneumonectomy: factors influencing its obliteration (Suarez et al.), 539

Spondylitis, rheumatoid, and aortic insufficiency: operable combination (Malette et al.), 471

Stenosis, esophageal, secondary to blunt chest trauma (Tsuji et al.), 289

fibrinous, of disc mitral valve prosthesis, reoperation for (Paton), 726

ostial, coronary: late complication of coronary perfusion in open-heart surgery (Trimble et al.), 792

tracheal, following assisted respiration, management of (Grillo), 52

cuffed tubes as cause of (Shelly et al.), 623

Sternum, resection of large chondromyxoid fibroma of (Teitelbaum and Bessone), 333

Stimulation, electrical, long-term, of heart, surgical aspects of (Frank et al.), 17

Stress test, treadmill, maximal, for evaluation of medical and surgical treatment of coronary insufficiency (Kemp et al.), 708

Stripping, hilar, radical, bronchial dynamics following (Wolfensperger et al.), 558

Subaortic annular aneurysm, surgical repair of (Collins et al.), 764

Subclavian artery, right, aberrant, symptomatic, in adult (dysphagia lusoria), new operation for (Siderys), 269

Surfactant changes in postperfusion pulmonary damage, secondary nature of (Panossian et al.), 628

Survival rates in peripheral bronchogenic carcinomas up to 4 cm. in diameter presenting as solitary pulmonary nodules (Jackman et al.), 1
Syndrome, distress, respiratory, adult, continuous positive-pressure breathing (CPPB) in (Ashbaugh et al.), 31
Marfan's, double valve replacement in (Nelson and Vaughn), 732
output, low: recognition and treatment (Dietzman et al.), 138
Systolic pressure in tunnelled portion of myocardial vascular implant (Baird and Manktelow), 714

T

Technique, improved, of heart transplantation in rats (Ono and Lindsey), 225
Teflon vascular grafts, fate of (Honigman et al.), 255
Temptrol (Bentley) disposable blood oxygenator, new, a clinical evaluation of (Kalke et al.), 675
Tetralogy of Fallot, absence of pulmonary valve in patients with (Waldhausen et al.), 669
in children under 4 years of age, results of correction of (Burnell et al.), 153
closure of Potts anastomoses in total repair of (Gross et al.), 72
following superior vena cava to pulmonary artery shunt, correction of (Claxton and Sabiston), 475
Thoracic aorta, dysphagia caused by tortuosity of (Hanna and Derrick), 134
Thoracotomy, total compliance and work of breathing after (Peters et al.), 348
Tortuosity of thoracic aorta, dysphagia caused by (Hanna and Derrick), 134
Trachea, intrathoracic, leiomyoma of (Kitamura et al.), 126
Tracheal stenosis following assisted respiration, management of (Grillo), 52
cuffed tubes as cause of (Shelly et al.), 623
Transplantation, heart, in rats, improved technique of (Ono and Lindsey), 225
Transplanted lung, functional studies of (Suzuki et al.), 562
Transplants, lung, canine, allogeneic, from living donors, physiologic evaluation of (Fonkalsrud et al.), 607
Transposition of great vessels in infants, hemodynamic correction of (Dobell et al.), 108
long-term follow-up of corrected case (Schumacker and Girod), 747
Transventricular revascularization, direct, experimental evaluation of (Kuzela and Miller), 770
Trauma, blood, produced by pump oxygenators: study of 5 units (Andersen and Kuchiba), 238
chest, blunt, esophageal stenosis secondary to (Tsuji et al.), 289
Traumatic hemopericardium with tricuspid incompetence (Shabetai et al.), 294
Treadmill stress test, maximal, for evaluation of medical and surgical treatment of coronary insufficiency (Kemp et al.), 708
Tricuspid incompetence, traumatic hemopericardium with (Shabetai et al.), 294
Truncus arteriosus defects, complete repair of (Wallace et al.), 95

V

Valves, aortic, fascial, autogenous, in dogs (Myers and Miller), 805
Valvular incompetence, aortic, surgical considerations in treatment of ventricular septal defect associated with (Gonzalez-Lavin and Barratt-Boyes), 422
Vascular grafts, Teflon, fate of (Honigman et al.), 255
Vein graft, composite, autogenous, successful, report of: superior vena cava replacement (Rheinlander), 774
Vena cava, inferior, acute hemodynamic consequences of ligation of (Harsanyi et al.), 442
and left atrium, anomalous right pulmonary venous drainage into (Gazzaniga et al.), 251
replacement, superior (Rheinlander), 774
Ventilation during general anesthesia for bronchoscopy (Morales et al.), 873
lung, individual, method for estimation of: portable fluorospirograph (Aoki et al.), 879
Ventricular arrhythmias, postoperative, effect of modified preoperative, intraoperative, and postoperative potassium supplementation on incidence of (Shanahan et al.), 413
fibrillation in dog, total circulatory support by peripheral cannulation and pump oxygenation during 8 hours of (Proctor and Parker), 702
septal defect associated with aortic valvular incompetence, surgical considerations in treatment of (Gonzalez-Lavin and Barratt-Boyes), 422

Vineberg anastomosis, early, detailed anatomy of (Trapp et al.), 450

W

Wankel engine, pulsatile flow blood pump based on principle of (Verbiski et al.), 753
Water and cation content of red blood cells and muscle tissue before and after cardiopulmonary bypass (Das et al.), 824
Water—Cont'd
and electrolyte content of skeletal muscle in congenital heart disease (Das and Eraklis), 819
Window, aorticopulmonary, in congenital heart disease with ischemic lungs, surgical production of (Argüero et al.), 786
aortopulmonary (Deverall et al.), 479

The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board WILLIAM E. ADAMS, *Chicago*

Subject index*

A

Abdominal pain syndrome and paradoxial hypertension: coarctation of aorta (Verska et al.), 746

Abnormalities, neurological, following open-heart surgery (Javid et al.), 502

Acupuncture, transmyocardial, myocardial revascularization by (Pifarré et al.), 424

Adjustment to cardiac surgery, predictive study of (Kimball), 891

Adrenal catecholamine and cortisol secretion during extracorporeal circulation in dogs (Alexander et al.), 250

Airway mechanics, human, comparison of effects of airway versus systemic carbon dioxide tension on (Patterson et al.), 209

American Association of Thoracic Surgery: Announcement of 1970 Annual Meeting, 149, 301, 455, 617
Roster of Members, 435

Aneurysm(s) of aortic arch: simplified technique for excision and prosthetic replacement (Pearce et al.), 886
biventricular, successful repair of postinfarction ventricular septal defect and (Stinson et al.), 20
dissecting, acute, of aorta (Wheat et al.), 344
ventricular, after infarction (Johnston et al.), 14
left, subvalvular, occurring as complication of mitral valve replacement, repair of (MacVaugh et al.), 291

Anomalous systemic venous drainage, total, into left atrium (Gueron et al.), 570

Anomaly, Ebstein's (Hardy and Roe), 553

Anticoagulation, closed-chest left heart bypass without (Wakabayashi et al.), 811
requirements, prolonged, central-flow, low-profile, leaflet-deforming mitral valve prosthesis free of (Edmark et al.), 713

Aorta, acute dissecting aneurysms of (Wheat et al.), 344
coarctation of: abdominal pain syndrome and paradoxical hypertension (Verska et al.), 746
pseudocoarctation of (Gay and Young), 739
treatment of mesenteric arteritis following resection of coarctation of (Ibarra-Perez and Lillehei), 135

Aortic arch, aneurysms of: simplified technique for excision and prosthetic replacement (Pearce et al.), 886
atresia and interruption of aortic arch (Tawes et al.), 492
and mitral valve replacement with fascia lata on frame (Edwards et al.), 854
stenosis, valvular, during infancy, surgical management of (Coran and Bernhard), 401
valve function, homograft, using an internal pulse duplicator, cinematographic evaluation of (Trimble et al.), Part I, 48; Part II, 54
homografts, postmortem changes in endothelial cells of (Innes et al.), 416
prosthesis, postoperative radiography of (Gabriele), 248
replacement (Bloodwell et al.), 457
valvular atresia and premature closure of foramen ovale (Peterson et al.), 79
valvular insufficiency in man, hemodynamic consequences of acute development of (Linhart et al.), 592

Arrhythmias, atrial, differential, in cardiac surgical patients (Nelson et al.), 581
ventricular, postoperative, caused by isoproterenol: conversion with insulin (Hoffman et al.), 664

Arteries, great, palliative surgery in children with transposition of (Deverall et al.), 721

Arteriography patterns, coronary, during acute myocardial infarction, hemodynamics and (Begg et al.), 647

Arteritis, mesenteric, following resection of coarction of aorta, treatment of (Ibarra-Perez and Lillehei), 135

*July, pp. 1-150; August, pp. 151-302; September, pp. 303-456; October, pp. 457-618; November, pp. 619-772; December, pp. 773-920.

Artificial heart, hemodynamic problems involved in design of (Nakamura and Redo), 103
Aspergillosis, stumps, bronchial (Sawasaki et al.), 198
Assisted circulation, prolonged, appraisal of blood trauma and blood material interface following (Bernhard et al.), 801
Atresia, aortic arch, and interruption of aortic arch (Tawes et al.), 492
valvular, aortic, and premature closure of foramen ovale (Peterson et al.), 79
Atrial arrhythmias, differential, in cardiac surgical patients (Nelson et al.), 581
electrode catheter, transvenous, permanent (Smyth et al.), 773
outflow obstruction, left, in the dog (Ferrier and Frech), 95
Atrium, left, total anomalous systemic venous drainage into (Gueron et al), 570
Automation of respirator control, on-line digital analysis of respiratory mechanics and (Hilberman et al.), 821
Autonomic innervation of esophagus of dog (Jacobowitz and Nemir), 678
Autoperfusing heart-lung preparation: vehicle for preservation of resuscitated cadaver heart (Tam et al.), 879

B

Ball-valve prosthesis during rest and exercise, evaluation of red cell survival in dogs with (Farber et al.), 288
Biological factors affecting long-term results of valvular heterografts (Carpentier et al.), 467
Blood diffusion limitation, overcoming: development of a membrane oxygenator (Bartlett et al.), 795
flow, collateral, coronary, after experimental coronary artery occlusion, effect of norepinephrine upon (Edlich et al.), 33
determination of accuracies of dye-dilution and electromagnetic flowmeter methods of measuring (Jacobs et al.), 601
gas parameters, reliability of mixed venous blood for measurement of (Samet et al.), 131
sampling, sinus, coronary, long-term, in unanesthetized dog without thoracotomy, new method for (Yum and Miller), 128
trauma and blood-material interface following prolonged assisted circulation, appraisal of (Bernhard et al.), 801
venous, mixed, for measurement of blood gas parameters, reliability of (Samet et al.), 131
Board of Thoracic Surgery—Notice of examinations, 150, 302, 456, 618, 772
Bronchial stump aspergillosis (Sawasaki et al.), 198
Bronchogenic cysts, mediastinal, in infancy, obstructive emphysema due to (Gerami et al.), 432
Bypass, cardiac, with roller pump modified to deliver pulsatile flow, improved organ function during (Jacobs et al.), 703
cardiopulmonary, metabolic comparison of new pulsatile pump and roller pump for (Trinkle et al.), 562
oxygen tension of cerebrospinal fluid during (Hasbrouck and Rigor), 754
relation of pulsatile flow to oxygen consumption and other variables during (Shepard and Kirklin), 694
heart, left, closed-chest, without anticoagulation (Wakabayashi et al.), 811

C

Cadaver heart, resuscitated, vehicle for preservation of: autoperfusing heart-lung preparation (Tam et al.), 879
Cancer, lung, importance of radical lobectomy in (Ramsey et al.), 225
Carbon dioxide tension (airway versus systemic), comparison of effects on human airway mechanics of (Patterson et al.), 209
Carcinoma of esophagus (Lawler et al.), 609
gastropleural fistula 12 years following gastric interposition for (Kirkpatrick and Allbritten), 769
Cardiac responses to stellate ganglion stimulation, influence of ventricular epicardiectomy on (Pace et al.), 39
surgery, predictive study of adjustment to (Kimball), 891
transplantation, human: clinical experience (De Bakey et al.), 303
in man. II. Immunosuppressive therapy (Stinson et al.), 326
valves, mucinous degeneration of: "floppy valve" syndrome (Frable), 62
Carina, tracheal, experimental reconstruction of (Spinazzola et al.), 1
Cardiopulmonary bypass with hemodilution, water and solute excretion following; effects of osmolarity of perfusion prime (Das et al.), 789
metabolic comparison of new pulsatile pump and roller pump for (Trinkle et al.), 562

Cardiopulmonary bypass—Cont'd
oxygen tension of cerebrospinal fluid during (Hasbrouck and Rigor), 754
partial, hypothermia, and total circulatory arrest: lifesaving technique (Lillehei et at.), 530
relation of pulsatile flow to oxygen consumption and other variables during (Shepard and Kirklin), 694
Cardiovascular responses of failing dog heart to counterpulsation (Tanaka et al.), 112
Catecholamine, adrenal, and cortisol secretion during extracorporeal circulation in dogs (Alexander et al.), 250
Catheter, electrode, atrial transvenous, permanent (Smyth et al.), 773
Cerebrospinal fluid during cardiopulmonary bypass, oxygen tension of (Hasbrouck and Rigor), 754
Children, diagnosis and management of mediastinal masses in (Haller et al.), 385
effects of pneumonectomy in (Stiles et al.), 394
heart block in: treatment with radiofrequency pacemaker (Glenn et al.), 361
surgery for severe rheumatic mitral regurgitation in children (du Plessis and Chesler), 730
with transposition of great arteries, palliative surgery in (Deverall et al.), 721
Cinematographic evaluation of homograft aortic valve function using an internal pulse duplicator. Part I. The importance of donor valve size (Trimble et al.), 48
Part II. The effects of sterilization and storage (Trimble et al.), 54
Circulatory arrest, total, partial cardiopulmonary bypass, hypothermia, and: lifesaving technique (Lillehei et al.), 530
Clamp, new, to hold patch prosthesis during open-heart surgery (Eguchi and Asano), 409
Closed-chest left heart bypass without anticoagulation (Wakabayashi et al.), 811
Coarctation of aorta: abdominal pain syndrome and paradoxical hypertension (Verska et al.), 746
Coarctation of aorta, treatment of mesenteric arteritis following resection of (Ibarra-Perez and Lillehei), 135
Colonic interposition, infarcted, partially, secondary repair of (Villa et al.), 186
Communication, left ventricular–right atrial, following valve replacement (Marsten and Hildner), 588
Complex of Fallot, surgical treatment of: late results (Zerbini), 158
Complications of prophylactic digitalization in thoracic surgical patients (Juler et al.), 352
Control of reflux following esophagogastrostomy, operative technique for (Pearson et al.), 668
Coronary artery disease, saphenous vein graft in surgical treatment of (Favaloro), 178
occlusion, experimental, effect of norepinephrine upon coronary collateral blood flow after (Edlich et al.), 33
Correction, total, of transposition of great vessels (Reed), 84
Cortisol secretion during extracorporeal circulation in dogs, adrenal catecholamine and (Alexander et al.), 250
Counterpulsation, cardiovascular responses of failing dog heart to (Tanaka et al.), 112
Cross-Jones valve, severe, intermittent, mitral regurgitation in: angiocardiographic and hemodynamic observations (Hammermeister et al.), 575
Cuff inflation, intermittent, volume-limited, for long-term respiratory assistance (Arens et al.), 837

D

Deterioration, late, of intracardiac Ivalon sponge patches (Hawe and Rastelli), 87
Diaphragm, spontaneous rupture of (Salomon et al.), 221
Differential atrial arrhythmias in cardiac surgical patients (Nelson et al.), 581
Digital analysis, on-line, of respiratory mechanics and automation of respirator control (Hilberman et al.), 821
Digitalization, prophylactic, in thoracic surgical patients, complications of (Juler et al.) 352
Dissecting aneurysms, acute, of aorta (Wheat et. al.), 344
Drainage, venous, systemic, anomalous, total, into left atrium (Gueron et al.), 570
Dye-dilution and electromagnetic flowmeter methods of measuring blood flow, determination of accuracies of (Jacobs et al.), 601

E

Ebstein's anomaly (Hardy and Roe), 553
Editorial: Extended training in thoracic-cardiovascular surgery (Effler), 147
Effusion, pleural, malignant, simplified method for management of (Leininger et al.), 758
Electrode(s), atrial-pacing, epicardial, new methods for placement of (Nathan et al.), 145

Hemodynamic(s)—Cont'd
catheter, atrial, transvenous, permanent (Smyth et al.), 773
withdrawal with permanent transvenous endocardial pacemaker, case of (McNamara et al.), 259
Electromagnetic flowmeter methods of measuring blood flow, determination of accuracies of dye-dilution and (Jacobs et al.), 601
Embolectomies, pulmonary, successful, two, in same patient: failure of vena caval plication (Williams et al.), 140
Emphysema, obstructive, due to mediastinal bronchogenic cysts in infancy (Gerami et al.), 432
Endothelial cells of aortic valve homografts, postmortem changes in (Innes et al.), 416
Epicardial atrial-pacing electrodes, new methods for placement of (Nathan et al.), 145
Epicardiectomy, ventricular, on cardiac responses to stellate ganglion stimulation, influence of (Pace et al.), 39
Esophageal strictures by intralesional steroid injections, experimental treatment of (Ashcraft and Holder), 685
Esophagogastrostomy, operative technique for control of reflux following (Pearson et al.), 668
Esophagus, carcinoma of (Lawler et al.), 609
of dog, autonomic innervation of (Jacobowitz and Nemir), 678
gastropleural fistula 12 years following gastric interposition for carcinoma of (Kirkpatrick and Allbritten), 769
granular cell myoblastoma of (Flege and Edmonds), 217
Extracorporeal circulation in dogs, adrenal catecholamine and cortisol secretion during (Alexander et al.), 250

F

Failing dog heart to counterpulsation, cardiovascular responses to (Tanaka et al.), 112
Fallot, surgical treatment of complex of: late results (Zerbini), 158
Fascia lata on frame, mitral and aortic valve replacement with (Edwards et al.), 854
Fistula, arteriovenous, cord, spinal: operative blood flow and pressure measurements during thoracotomy (Dillon), 279
artery, ventriculocoronary, left, possibility of myocardial revascularization by creation of (Munro and Allen), 25
gastropleural, 12 years following gastric interposition for carcinoma of esophagus (Kirkpatrick and Allbritten), 769
Flexible leaflet prosthetic valves, late follow-up studies on (Roe), 59
"Floppy valve" syndrome: mucinous degeneration of cardiac valves (Frable), 62
Flow, implant, internal mammary artery, myocardial, effects of pressure difference on (Suma et al.), 282
Flowmeter methods, electromagnetic, of measuring blood flow, determination of accuracies of dye-dilution and (Jacobs et al.), 601
Foramen ovale, aortic valvular atresia and premature closure of (Peterson et al.), 79

G

Gastric interposition for carcinoma of esophagus, gastropleural fistula 12 years following (Kirkpatrick and Allbritten), 769
Graft, vein, saphenous, in surgical treatment of coronary artery disease (Favaloro), 178
Granular cell myoblastoma of esophagus (Flege and Edmonds), 217
Great vessels, Mustard operation for transposition of (Haller et al.), 296
total correction of transposition of (Reed), 84

H

Heart, artificial, hemodynamic problems involved in design of (Nakamura and Redo), 103
block in children: treatment with radiofrequency pacemaker (Glenn et al.), 361
dog, failing, to counterpulsation, cardiovascular responses of (Tanaka et al.), 112
human, transplanted, function of (Hallman et al.), 318
-lung preparation, autoperfusing: vehicle for preservation of resuscitated cadaver heart (Tam et al.), 879
transplanted, microcirculation of (Neville et al.), 625
Hemodilution, water and solute excretion following cardiopulmonary bypass with: effects of osmolarity of perfusion prime (Das et al.), 789
Hemodynamic(s) consequences of respiratory insufficiency following trauma (Doty et al.), 374
and coronary arteriography patterns during acute myocardial infarction (Begg et al.), 647
problems involved in design of artificial heart (Nakamura and Redo), 103

Lung(s)—Cont'd
pulmonary, normal, improved perfusion of functioning isolated lungs based on (Fisk et al.), 231
state after open mitral valve replacement and reconstruction (Rouleau et al.), 870
Heterografts, valvular, biological factors affecting long-term results of (Carpentier et al.), 467
Homograft(s) aortic valve function using an internal pulse duplicator, cinematographic evaluation of (Trimble et al.), Part I, 48; Part II, 54
valve, aortic, postmortem changes in endothelial cells of (Innes et al.), 416
semilunar, new technique for replacement of mitral valve by (Yacoub and Kittle), 859
Homotransplantation of lung and simultaneous contralateral pulmonary artery ligation, protracted survival after (Veith et al.), 829
Honored Guest's Address: Surgical treatment of complex of Fallot: late results (Zerbini), 158
Human cardiac transplantation: clinical experience (De Bakey et al.), 303
Hydatid cysts of thoracic outlet, Pancoast's syndrome due to (Stathatos et al.), 764
Hypertension, paradoxical, abdominal pain syndrome and: coarctation of aorta (Verska et al.), 746
Hypothermia, deep, surface-induced, for open-heart surgery in infants, method of (Mohri et al.), 262
organ viability with (Angell et al.), 619
and total circulatory arrest, partial cardiopulmonary bypass: lifesaving technique (Lillehei et al.), 530
Hypoxemia, oxygen consumption after oxygen therapy for (Groves et al.), 842

I

Immunosuppressive therapy, II. Cardiac transplantation in man (Stinson et al.), 326
Implant flow, internal mammary artery, myocardial, effects of pressure difference on (Suma et al.), 282
Implantation, lead, pacer, long-term follow-up of new method of (Jude et al.), 783
Infancy, obstructive emphysema due to mediastinal bronchogenic cysts in (Gerami et al.), 432
surgical management of valvular aortic stenosis during (Coran and Bernhard), 401
Infants, method of surface-induced deep hypothermia for open-heart surgery in (Mohri et al.), 262
Infarction, myocardial, acute, hemodynamics and coronary arteriography patterns during (Begg et al.), 647
ventricular aneurysm after (Johnston et al.), 14
Injections, steroid, intralesional, experimental treatment of esophageal strictures by (Ashcraft and Holder), 685
Innervation, autonomic, of esophagus of dog (Jacobowitz and Nemir), 678
Insufficiency, valvular, aortic, in man, hemodynamic consequences of acute development of (Linhart et al.), 592
Insulin, conversion with: postoperative ventricular arrhythmias caused by isoproterenol (Hoffman et al.), 664
Interface, blood-material, following prolonged assisted circulation, appraisal of blood trauma and (Bernhard et al.), 801
Interposition, colonic, infarcted, partially, secondary repair of (Villa et al.), 186
Interruption of aortic arch, aortic arch atresia and (Tawes et al.), 492
Ischemia, regional, significance of sampling sites in the study of myocardial metabolism in (Blair), 271
Isolated lungs, functioning, based on normal pulmonary hemodynamics, improved perfusion of (Fisk et al.), 231
Isoproterenol, postoperative ventricular arrhythmias caused by: conversion with insulin (Hoffman et al.), 664
Ivalon sponge patches, intracardiac, late deterioration of (Hawe and Rastelli), 87

L

Ligation, pulmonary artery, contralateral, simultaneous, protracted survival after homotransplantation of lung and (Veith et al.), 829
Limitation, diffusion, blood, overcoming: development of a membrane oxygenator (Bartlett et al.), 795
Lobectomy, radical, in lung cancer, importance of (Ramsey et al.), 225
Lung(s) cancer, importance of radical lobectomy in (Ramsey et al.), 225
isolated, functioning, based on normal pulmonary hemodynamics, improved perfusion of (Fisk et al.), 231
membrane, vertical (Morin et al.), 411
primary osteogenic sarcoma in (Nosanchuk and Weatherbee), 242

M

Malignant pleural effusion, simplified method for management of (Leininger et al.), 758
tumor, primary, of mitral valve with surgical removal (de Saint-Florent et al.), 71
Masses, mediastinal, in children, diagnosis and management (Haller et al.), 385
Measurement(s) of blood gas parameters, reliability of mixed venous blood for (Samet et al.), 131
pressure, accurate, practical approach to (Manktelow and Baird), 122
Median, sternotomy, complications of (Brown et al.), 189
Mediastinal bronchogenic cysts in infancy, obstructive emphysema due to (Gerami et al.), 432
masses in children, diagnosis and management of (Haller et al.), 385
Membrane lung, vertical (Morin et al.), 411
oxygenator, development of: overcoming blood diffusion limitation (Bartlett et al.), 795
Mesenteric arteritis following resection of coarctation of aorta, treatment of (Ibarra-Perez and Lillehei), 135
Metabolic comparison of new pulsatile pump and roller pump for cardiopulmonary bypass (Trinkle et al.), 562
Metabolism, myocardial, in regional ischemia, significance of sampling sites in study of (Blair), 271
Microcirculation of transplanted heart (Neville et al.), 625
Mitral and aortic valve replacement with fascia lata on frame (Edwards et al.), 854
valve by a semilunar valve homograft, new technique for replacement of (Yacoub and Kittle), 859
prosthesis, leaflet-deforming, low-profile, central-flow, free of prolonged anticoagulation requirements (Edmark et al.), 713
replacement, open, and reconstruction, hemodynamic state after (Rouleau et al.), 870
repair of subvalvular left ventricular aneurysm occurring as complication of (MacVaugh et al.), 291
tricuspid insufficiency in patients undergoing (Pluth and Ellis), 484
with surgical removal, primary malignant tumor of (de Saint-Florent et al.), 71
regurgitation, intermittent, severe, in Cross-Jones valve: angiographic and hemodynamic observations (Hammermeister et al.), 575
Mitral regurgitation—Cont'd
rheumatic, severe, in children, surgery for (du Plessis and Chesler), 730
Mucinous degeneration of cardiac valves: "floppy valve" syndrome (Frable), 62
Mustard operation for transposition of great vessels (Haller et al.), 296
Myoblastoma, cell, granular, of esophagus (Flege and Edmonds), 217
Myocardial infarction, acute, hemodynamics and coronary arteriography patterns during (Begg et al.), 647
internal mammary artery implant flow, effects of pressure difference on (Suma et al.), 282
metabolism in regional ischemia, significance of sampling sites in study of (Blair), 271
revascularization by creation of left ventriculocoronary artery fistula, possibility of (Munro and Allen), 25
experimental evaluation of myocardial tunnelization as method of (Anabtawi et al.), 638
by transmyocardial acupuncture (Pifarré et al.), 424
tunnel, artificial, prevention of intravascular thrombosis by (Carlson et al.), 614
Myocardium, effect of high perfusion pressures on histology, histochemistry, birefringence, and function of (Brown et al.), 655
ventricular, by open-cage atrioventricular valvular prosthesis, engagement of (Kalke et al.), 92

N

Neurological abnormalities following open-heart surgery (Javid et al.), 502
Nontuberculous pericarditis, pericardiectomy in (Mullen et al.), 517
Norepinephrine upon coronary collateral blood flow after experimental coronary artery occlusion, effect of (Edlich et al.), 33

O

Obstruction, outflow, atrial, left, in the dog (Ferrier and Frech), 95
Occlusion, coronary artery, experimental, effect of norepinephrine upon coronary collateral blood flow after (Edlich et al.), 33
On-line digital analysis of repiratory mechanics and automation of respirator control (Hilberman et al.), 821

Open-heart surgery in infants, method of surface-induced deep hypothermia for (Mohri et al.), 262
neurological abnormalities following (Javid et al.), 502
pericardial tamponade following (Nelson et al.), 510
Organ function, improved, during cardiac bypass with roller pump modified to deliver pulsatile flow (Jacobs et al.), 703
viability with hypothermia (Angell et al.), 619
Osmolarity of perfusion prime, effects of: water and solute excretion following cardiopulmonary bypass with hemodilution (Das et al.), 789
Osteogenic sarcoma, primary, in lung (Nosanchuk and Weatherbee), 242
Outflow obstruction, atrial, left, in the dog (Ferrier and Frech), 95
Oxygen consumption after oxygen therapy for hypoxemia (Groves et al.), 842
and other variables during cardiopulmonary bypass, relation of pulsatile flow to (Shepard and Kirklin), 694
tension of cerebrospinal fluid during cardiopulmonary bypass (Hasbrouck and Rigor), 754
Oxygenator, membrane, development of: overcoming blood diffusion limitation (Bartlett et al.), 795

P

Pacemaker, endocardial, transvenous, permanent, case of electrode withdrawal with (McNamara et al.), 259
radiofrequency, treatment with: heart block in children (Glenn et al.), 361
Pacer lead implantation, long-term follow-up of new method of (Jude et al.), 783
Palliative surgery in children with transposition of great arteries (Deverall et al.), 721
Pancoast's syndrome due to hydatid cysts of thoracic outlet (Stathatos et al.), 764
Patch(es) prosthesis during open-heart surgery, new clamp to hold (Eguchi and Asano), 409
sponge, Ivalon, intracardiac, late deterioration of (Hawe and Rastelli), 87
Perfusion, improved, of functioning isolated lungs based on normal pulmonary hemodynamics (Fisk et al.), 231
pressures, high, on histology, histochemistry, birefringence, and function of myocardium, effect of (Brown et al.), 655
prime, effects of osmolarity of: water and solute excretion following cardiopulmonary bypass with hemodilution (Das et al.), 789
Pericardial tamponade following open-heart surgery (Nelson et al.), 510
Pericardiectomy in nontuberculous pericarditis (Mullen et al.), 517
Pericarditis, nontuberculous, pericardiectomy in (Mullen et al.), 517
Placement of epicardial atrial-pacing electrodes, new method for (Nathan et al.), 145
Pleural effusion, malignant, simplified method for management of (Leininger et al.), 758
Plication, vena caval, failure of: two successful pulmonary embolectomies in same patient (Williams et al.), 140
Pneumonectomy in children, effects of (Stiles et al.), 394
Postinfarction ventricular septal defect and biventricular aneurysms, successful repair of (Stinson et al.), 20
Postmortem changes in endothelial cells of aortic valve homografts (Innes et al.), 416
Predictive study of adjustment to cardiac surgery (Kimball), 891
Premature closure of foramen ovale, aortic valvular atresia and (Peterson et al.), 79
Preservation of resuscitated cadaver heart, vehicle for: autoperfusing heart-lung preparation (Tam et al.), 879
President's address (Kent), 151
Pressure(s) measurements, accurate, practical approach to (Manktelow and Baird), 122
perfusion, high, on histology, histochemistry, birefringence, and function of myocardium, effect of (Brown et al.), 655
Primary malignant tumor of mitral valve with surgical removal (de Saint-Florent et al.), 71
Prolonged assisted circulation, appraisal of blood trauma and blood-material interface following (Bernhard et al.), 801
Prophylactic digitalization in thoracic surgical patients, complications of (Juler et al.), 352
Prosthesis(es), ball-valve, during rest and exercise, evaluation of red cell survival in dogs with (Farber et al.), 288
mitral valve, leaflet-deforming, low-profile, central-flow, free of prolonged anticoagulation requirements (Edmark et al.), 713
patch, during open-heart surgery, new clamp to hold (Eguchi and Asano), 409
valve, aortic, postoperative radiography of (Gabriele), 248
valvular, atrioventricular, open-cage, engagement of ventricular myocardium by (Kalke et al.), 92

Prosthetic valves, leaflet, flexible, late follow-up studies on (Roe), 59
Pseudocoarctation of aorta (Gay and Young), 739
Pulmonary artery ligation, contralateral, simultaneous, protracted survival after homotransplantation of lung and (Veith et al.), 829
embolectomies, successful, two, in same patient: failure of vena caval plication (Williams et al.), 140
Pulsatile flow, improved organ function during cardiac bypass with roller pump modified to deliver (Jacobs et al.), 703
to oxygen consumption and other variables during cardiopulmonary bypass, relation of (Shepard and Kirklin), 694
pump, new, and roller pump for cardiopulmonary bypass, metabolic comparison of (Trinkle et al.), 562
Pulse duplicator, internal, cinematographic evaluation of homograft aortic valve functin using (Trimble et al.), Part I, 48; Part II, 54

R

Radical lobectomy in lung cancer, importance of (Ramsey et al.), 225
Radiofrequency pacemaker, treatment with: heart block in children (Glenn et al.), 361
Radiography, postoperative, of aortic valve prostheses (Gabriele), 248
Reconstruction, experimental, of tracheal carina (Spinazzola et al.), 1
Red cell survival in dogs with ball-valve prosthesis during rest and exercise, evaluation of (Farber et al.), 288
Reflux following esophagogastrostomy, operative technique for control of (Pearson et al.), 668
Regurgitation, mitral, intermittent, severe, in Cross-Jones valve: angiocardiographic and hemodynamic observations (Hammermeister et al.), 575
rheumatic, severe, in children, surgery for (du Plessis and Chesler), 730
Repair, secondary, of partially infarcted colonic interposition (Villa et al.), 186
Replacement of mitral valve by semilunar valve homograft, new technique (Yacoub and Kittle), 859
prosthetic, simplified technique for excision and: aneurysms of aortic arch (Pearce et al.), 886
valve, aortic (Bloodwell et al.), 457
left ventricular–right atrial communication following, (Marsten and Hildner), 588
Replacement, valve—Cont'd
mitral, open, and reconstruction, hemodynamic state after (Rouleau et al.), 870
repair of subvalvular left ventricular aneurysm occurring as complication of (MacVaugh et al.), 291
tricuspid insufficiency in patients undergoing (Pluth and Ellis), 484
Respiratory assistance, long-term, volume-limited intermittent cuff inflation for (Arens et al.), 837
insufficiency following trauma, hemodynamic consequences of (Doty et al.), 374
mechanics and automation of respirator control, on-line digital analysis of (Hilberman et al.), 821
Revascularization, myocardial, by creation of left ventriculocoronary artery fistula, possibility of (Munro and Allen), 25
experimental evaluation of myocardial tunnelization as method of (Anabtawi et al.), 638
by transmyocardial acupuncture (Pifarré et al.), 424
Rheumatic mitral regurgitation, severe, in children, surgery for (du Plessis and Chesler), 730
Roller pump for cardiopulmonary bypass, metabolic comparison of new pulsatile pump and (Trinkle et al.), 562
modified to deliver pulsatile flow, improved organ function during cardiac bypass with (Jacobs et al.), 703
Rupture, spontaneous, of diaphragm (Salomon et al.), 221

S

Sampling, blood, sinus, coronary, long-term, in unanesthetized dog without thoracotomy, new method for (Yum and Miller), 128
sites in study of myocardial metabolism in regional ischemia, significance of (Blair), 271
Saphenous vein graft in surgical treatment of coronary artery disease (Favaloro), 178
Sarcoma, osteogenic, primary, in lung (Nosanchuk and Weatherbee), 242
Septal defect, ventricular, and subpulmonary stenosis, anatomic correction of transposition of great arteries with (Rastelli et al.), 545
Spinal cord arteriovenous fistula: operative blood flow and pressure measurements during thoracotomy (Dillon), 279
Spontaneous rupture of diaphragm (Salomon et al.), 221

Stellate ganglion stimulation, influence of ventricular epicardiectomy on cardiac responses to (Pace et al.), 39
Stenosis, aortic, valvular, during infancy, surgical management of (Coran and Bernhard), 401
subpulmonary, anatomic correction of transposition of great arteries with ventricular septal defect and (Rastelli et al.), 545
Sternotomy, median, complications of (Brown et al.), 189
Steroid injections, intralesional, experimental treatment of esophageal strictures by (Ashcraft and Holder), 685
Strictures, esophageal, by intralesional steroid injections, experimental treatment of (Ashcraft and Holder), 685
Surface-induced deep hypothermia for open-heart surgery in infants, method of (Mohri et al.), 262
Survival, cell, red, in dogs with ball-valve prosthesis during rest and exercise, evaluation of (Farber et al.), 288
protracted, after homotransplantation of lung and simultaneous contralateral pulmonary artery ligation (Veith et al.), 829
Syndrome "floppy valve": mucinous degeneration of cardiac valves (Frable), 62
pain, abdominal, and paradoxical hypertension: coarctation of aorta (Verska et al.), 746
Pancoast's, due to hydatid cysts of thoracic outlet (Stathatos et al.), 764
Systemic carbon dioxide tension on human airway mechanics, comparison of effects of airway versus (Patterson et al.), 209
venous drainage, anomalous, total, into left atrium (Gueron et al.), 570

T

Tamponade, pericardial, following open-heart surgery (Nelson et al.), 510
Thoracic outlet, Pancoast's syndrome due to hydatid cysts of (Stathatos et al.), 764
Thoracic-cardiovascular surgery, extended training in (Effler), 147 (Edit.)
Thoracotomy, new method for long-term coronary sinus blood sampling in unanesthetized dog without (Yum and Miller), 128
Thrombosis, intravascular, by artificial myocardial tunnel, prevention of (Carlson et al.), 614
Tracheal carina, experimental reconstruction of (Spinazzola et al.), 1
Training, extended, in thoracic-cardiovascular surgery (Effler), 147 (Edit.)
Transplantation, cardiac, human: clinical experience (De Bakey et al.), 303
in man. II. Immunosuppressive therapy (Stinson et al.), 326
Transplanted heart, microcirculation of (Neville et al.), 625
human heart, function of (Hallman et al.), 318
Transposition of great arteries, palliative surgery in children with (Deverall et al.), 721
with ventricular septal defect and subpulmonary stenosis, anatomic correction of (Rastelli et al.), 545
of great vessels, Mustard operation for (Haller et al.), 296
total correction of (Reed), 84
Trauma, hemodynamic consequences of respiratory insufficiency following (Doty et al.), 374
Tricuspid insufficiency in patients undergoing mitral valve replacement (Pluth and Ellis), 484
Tunnel, myocardial, artificial, prevention of intravascular thrombosis by (Carlson et al.), 614
Tunnelization, myocardial, as method of myocardial revascularization, experimental evaluation of (Anabtawi et al.), 638

V

Valve(s), Cross-Jones, severe, intermittent, mitral regurgitation in: angiocardiographic and hemodynamic observations (Hammermeister et al.), 575
homograft, semilunar, new technique for replacement of mitral valve by (Yacoub and Kittle), 859
prosthetic, leaflet, flexible, late follow-up studies on (Roe), 59
replacement, aortic (Bloodwell et al.), 457
left ventricular–right atrial communication following (Marsten and Hildner), 588
mitral, open, and reconstruction, hemodynamic state after (Rouleau et al.), 870
Valvular insufficiency, aortic, in man, hemodynamic consequences of acute development of (Linhart et al.), 592
prosthesis, atrioventricular, open-cage, engagement of ventricular myocardium by (Kalke et al.), 92
Vena caval plication, failure of: two successful pulmonary embolectomies in same patient (Williams et al.), 140
Ventricular aneurysm after infarction (Johnston et al.), 14
septal defect, postinfarction, and biventricular aneurysm, successful repair of (Stinson et al.), 20

Ventriculocoronary artery fistula, left, possibility of myocardial revascularization by creation of (Munro and Allen), 25
Vertical membrane lung (Morin et al.), 411
Viability, organ, with hypothermia (Angell et al.), 619
Volume-limited intermittent cuff inflation for long-term respiratory assistance (Arens et al.), 837

W

Water and solute excretion following cardiopulmonary bypass with hemodilution: effects of osmolarity of perfusion prime (Das et al.), 789
Withdrawal, electrode, with permanent transvenous endocardial pacemaker, case of (McNamara et al.), 259
